- 3** Receive an Instant Rebate on your invoice

Eligibility

Non-residential customers of SoCalGas®, Pacific Gas and Electric Company (PG&E®), Southern California Edison Company (SCE®) and San Diego Gas & Electric Company (SDG&E®) are eligible to receive Instant Rebates. Equipment must be installed in a non-residential location that receives natural gas and/or electricity service from one of the above utilities.

Energy Savings with High Efficiency

Major cooking appliances account for almost 35% of the average restaurant's energy expenditures. Efficient equipment could help decrease your energy use by as much as 75% compared to standard efficiency equipment.¹ High efficiency equipment uses less energy and water, which could reduce your utility bills.

¹ Energy consumption for commercial kitchens based on Energy Star study: https://www.energystar.gov/ia/business/small_business/restaurants_guide.pdf. Actual savings may vary and will depend on various factors, including equipment installed, usage rates and so forth.
